ARUN S

Software Engineer | Data Analyst | AI & ML Enthusiast

+91 97903 44105 | arunmozli1401@gmail.com | linkedin.com/in/arun-s-077a98280 | Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Motivated Computer Science Engineering graduate (B.Tech 2025) with hands-on experience in Python, machine learning, data analysis, and full-stack development. Proven ability to design and deploy AI-powered applications, interactive dashboards, and real-time systems. Patent holder and published researcher with international exposure. Seeking an entry-level Software Engineer role to contribute to scalable, high-impact software solutions at a leading technology company.

TECHNICAL SKILLS

Languages	Python, SQL, Java, HTML, CSS
Core CS	Data Structures & Algorithms, OOP, DBMS, REST APIs, Debugging, Code Optimization
AI / ML	TensorFlow, Scikit-Learn, OpenCV, NumPy, Pandas, Matplotlib, Seaborn, Feature Engineering, EDA
BI & Visualization	Power BI (DAX, Power Query, Data Modeling), Microsoft Excel (Pivot Tables, XLOOKUP), Tableau, Streamlit
Cloud & DevOps	Microsoft Azure, AWS (Basics), Firebase, Git, Jira, Agile/Scrum
Tools & Platforms	VS Code, Jupyter Notebook, MySQL, Android Studio, Figma, Selenium

PROJECTS

AI-Based Hand Gesture Recognition System | *Python, OpenCV, TensorFlow, Deep Learning*

- Developed a real-time gesture recognition system using computer vision and deep learning models (CNN) achieving high accuracy for 10+ gesture classes.
- Integrated the system with VR applications to enable intuitive gesture-based control, improving accessibility for users with limited mobility.
- Implemented data augmentation and transfer learning to improve model robustness; results published as a peer-reviewed research paper.

Used Car Price Prediction System | *Python, Scikit-Learn, Pandas, Streamlit*

- Built regression-based ML models (Random Forest, XGBoost) for accurate used car price prediction with data preprocessing and feature selection pipelines.
- Deployed a user-friendly Streamlit dashboard enabling interactive price estimation with real-time input parameters.

Cybersecurity Incident Detection | *Python, Azure ML, Scikit-Learn*

- Designed an anomaly detection ML model using Microsoft Azure ML to identify cybersecurity threats in real time with high precision and recall.
- Implemented classification algorithms (Isolation Forest, SVM) for automated threat categorization, reducing manual review effort.

E-Commerce Sales Insights Dashboard | *Power BI, DAX, Power Query*

- Analyzed 10,000+ sales records with Power Query and DAX; built interactive dashboards tracking revenue, customer segmentation, and KPIs for monthly growth.

Real-Time Data Scraping Application | *Selenium, Python, Streamlit*

- Automated dynamic web data extraction using Selenium; built a Streamlit dashboard for real-time data visualization and filtering.

Enigma: AI-Powered Company Chat Application | *Python, Firebase, AI/NLP*

- Designed an encrypted real-time chat application with AI-driven sentiment analysis for improved team collaboration and communication security.

EDUCATION

Bachelor of Technology – Computer Science Engineering | **2021 – 2025**
Dr. M.G.R. Educational and Research Institute, Chennai

CERTIFICATIONS

- CS50AI: Introduction to AI with Python – HarvardX
- Data Analytics & Business Analyst – Simplilearn
- Data Analyst Using Python – TeqCertify
- Data Visualization Specialization – IBM (edX)
- Microsoft Azure Technical Skills Certification
- Supply Chain Analytics – MIT Online Learning Initiative

ACHIEVEMENTS & RESEARCH

- Patent Holder – AI-based Driver Assistance System (Government of India)
- Published Research Paper: "A Review on AI-Based Hand Gesture Recognition Using Virtual Reality" – peer-reviewed journal
- Organizing Committee Award – National Seminar on Space 3.0 and 4.0
- Event Coordinator – Innovathon at Techastra 2024
- Completed SDTP Program in Russia (Moscow) 2024 – international technology exposure
- Finalist – Eureka Challenge 2.0 by Varroc Engineering

- Participated – IEEE CS PESU Present Confluence, Bangalore

SOFT SKILLS

Problem Solving • Logical Thinking • Analytical Mindset • Team Collaboration • Communication • Leadership • Agile & Scrum • Critical Thinking • Business Understanding

LANGUAGES

Tamil (Fluent) • English (Fluent) • Kannada (Conversational)
